

Garden Manager (Burkeville, VA)
Waverly Farms

Sustainable farm using organic practices seeks qualified person to grow vegetables and herbs for a 20 member CSA (community supported agriculture).

Responsibilities include planning, ordering seeds and transplants, preparing beds, planting, managing pests and disease, harvesting, cleaning, boxing and delivering vegetables, herbs, eggs and other farm products to customers. Animal-related and general farm chores are also required. Documentation of plans and results, and good relationships with customers are also part of the job. Equipment and supplies, such as tractors, implements, plastic mulch layers, irrigation, row covers are provided by the farm owners. Additional help is available as needed.

The ideal candidate would have experience and success in planning and managing a garden, be reliable and honest, enjoy gardening, farming and working outdoors. This is a long term opportunity to grow with the CSA and the farm. Compensation is based upon the qualifications of the candidate. Housing may be available. If you have additional questions, or would like to join our effort, please reply to the email above.
