

Rancho Alegre Farm (Dacula, GA - Gwinnett County) is looking for an experienced farming couple or farmer to manage all farm operations while living on-site. Currently, our 15 acre farm has a 2 acre garden (raised beds and fields) offruits and vegetables, laying hens, meat chickens, cows and goats (for raw milk), donkeys, and ponies. We also have plans to sell grass fed beef for other farms in our area. Opportunity exists for production of value-added products in our certified kitchen. Applicants should have interest and some experience in sustainable, natural and permaculture farming practices. Experience with rotational grazing, pasture management for livestock and agricultural production a plus. Must have an outgoing personality and willing to sell goods through local farmer's markets. Social media networking is a plus. We are a busy AgriTourism destination, so the farmer must be clean and organized and keep the farm and farm goods very presentable to the public.

Compensation includes on-site living accommodations, food from the farm, a weekly stipend (dependent on experience) and a percentage of sales of agricultural products (garden produce, eggs, raw milk, and meat). Daily responsibilities will include pasture maintenance, rotation of livestock, feeding all livestock in the mornings and afternoons, milking, and garden management.

Please submit your resume and a short paragraph describing why you are interested in this position to contact@ranchoalegrefarm.com.
